

La Habra High School

## HiARTS Biography – Megan McQuown – Art

---

Megan McQuown has been teaching at La Habra High School for two years. She graduated from California State University, Fullerton in Spring of 2018 with a Bachelor of Arts (emphasis in teaching). Although Megan is new to LHHS, she is not new to teaching art. Prior to her job here, Megan worked for a company called Young Rembrandts - an afterschool program that aims to teach art fundamentals to elementary students. To this day, Megan enjoys watching the wheels turn in students' minds as they begin connecting their creative right brain with their logical left brain. Once students bridge the two sides of the brain, problem-solving begins! Megan is very passionate about the well-being of students and believes that art is a subject where students can learn about themselves and grow as individuals.

Aside from teaching Drawing and Painting, Megan is the club advisor for Club One here at La Habra High School. Club One is a place where students can find a safe space to embrace and learn about themselves while focusing on self-care and mental health.

In her spare time, Megan enjoys cooking delicious meals and training Jiu Jitsu at 10th Planet. Ever since Megan was in High School, she knew that she wanted to be an art teacher. It is Megan's honor to be here at La Habra. As a lifelong learner, she is thrilled to have this opportunity to share art with all of you!
